

TECHNICAL COMMITTEES' MEETINGS

September 2018

Thursday 6	:	Industrial Analyzers – Detection for Safety
Friday 7	:	Measurement Systems and Quality
Tuesday 11	:	Remote sensing and Thermography
Wednesday 12	:	Industrial Transmitters and Networks
Tuesday 18	:	Control system, Simulation and Programmation
Tuesday 25	:	Flowmetering-Levelmetering

October 2018

Monday 1	:	Automated Production Systems
Wednesday 3	:	Maintenance in operational condition
Tuesday 9	:	Cybersecurity of Industrial Systems
Monday 15	:	Industrial Analyzers – Detection for Safety
Tuesday 16	:	Safety Instrumented Systems
Wednesday 17	:	Measurement Systems and Quality

The members of EI, Namur or WIB wishing to attend one of the meetings are welcome to contact us:
Tel.: +33 1 53 32 80 08 – E-mail: exera@exera.com

UPCOMING EVENTS

- **Technical Day « Cybersecurity of industrial systems »**
September 27, at Paris Gare de l'Est (75)
13 exhibitors, 15 speakers and 138 registered participants on Sept 10
- **Visit Day at LNE**
October 2, in Trappes (78)
29 registered participants
- **Technical Day « Measurements in industrial environment »**
November 15, at Paris Gare de l'Est (75)
3 exhibitors, 8 speakers and 4 registered participants on Sept 10

Find all Exera upcoming events and other useful exhibitions on our website home page www.exera.com

LIFE OF THE ASSOCIATION

- Meeting of Namur, Evaluation International, WIB, Exera and CLUI AS on September 18th in Cologne (Germany) within NEWEC agreement.
- The Program Commission 2019 will meet on November 8 Thursday, at LNE (Paris 15^e).
- The next Board Meeting will be held on December 13 Thursday, 2018

REPORTS UPLOADED IN 2018

From Exera

M6085X18R

Spectral emissivity measurements on twelve industrial samples in three different materials

E6086X18R

Evaluation of Flir GF 343 and 346 Gas Leak Detection IR Cameras

E6087X18R

Evaluation of Opgal Eye-Cgas IR Gas Leak Detection Camera

E6088X18R

Evaluation of the fixed oxygen deficiency detector Dräger Polytron 8100 O₂ LS

E6089X18R

Evaluation of the fixed oxygen deficiency detector Baker Hughes XMO2

E6090X18R

Evaluation of the fixed oxygen deficiency detector Honeywell XNX

E6091X18R

Evaluation of the fixed oxygen deficiency detector MSA ULTIMA X5000

E6092X18R

Evaluation of the fixed oxygen deficiency detector Oldham OLCT 100 XP

E6093X18R

Evaluation of the fixed oxygen deficiency detector Servomex OxyDetect

E6094X18R

Evaluation of the fixed oxygen deficiency detector Simtronics DGi TT7

R6095X18R

Field Reviews of MID Electronique (a company in MCO Obsolescence of electronic systems)

M6096X18R

Training support Design, tuning and performance evaluation of Industrial Control Loops

From Evaluation International

T1977X18R

Evaluation of Proline Promag flowmeter (DN250 & DN500)

T1978X18R

Evaluation of SITRANS F M MAG 5100 W and SITRANS F M MAG 3100 flowmeters

T1979X18R

Evaluation of SITRANS FUP1010 Clamp-On Ultrasonic flowmeter

T1980X18R

Evaluation of Fluxus F721 Clamp-On Ultrasonic flowmeter

Reports are available online and downloadable on the website www.exera.com (access reserved to registered members)

ON-GOING OPERATIONS

Aug, 2016	Computer-aided guide of choice on optical fiber sensors
Sept. 2017	Evaluation of seventeen absolute pressure transmitters on two pressure ranges [0-1 BarA] et [0-100 BarA]
Nov. 2017	Assessment on the Feyzin site of five ambient air quality measuring devices
Jan. 2018	Evaluation of three level meters
Sept. 2018	Evaluation of three flowmeters "low flow of liquid"
