

## TECHNICAL COMMITTEES' MEETINGS

### June 2019

Tuesday 4	:	Control system, Simulation and Programmation
Thursday 6	:	Industrial Transmitters and Networks
Monday 17	:	Automated Production Systems
Thursday 20	:	Safety Instrumented Systems
Monday 24	:	Measurement and New Technologies
Tuesday 25	:	Remote sensing and Thermography
Thursday 27	:	Industrial Analyzers – Detection for Safety

### July 2019

Wednesday 10	:	Cybersecurity of Industrial Systems
Thursday 11	:	Maintenance in operational condition

No technical commission is scheduled for August.

The members of EI, Namur or WIB wishing to attend one of the meetings are welcome to contact us:  
Tel.: +33 1 53 32 80 08 – E-mail: [exera@exera.com](mailto:exera@exera.com)

## UPCOMING EVENTS

- **Technical Day « Flowmetering-Levelmetering »**  
Wednesday, June 5, 2019, in Paris 12<sup>e</sup>
- **Emerson « Manufacturer » Day**  
Thursday, June 13, 2019, in Cernay (68)
- **Technical Day « Cybersecurity of industrial systems »**  
Thursday, September 26, 2019, in Paris 12<sup>e</sup>
- **Visiting of Lorraine site of INRS**  
Tuesday, October 8, 2019, in Vandœuvre-lès-Nancy (54)

## LIFE OF THE ASSOCIATION

- Board Meeting and Annual General Meeting of Exera members on June 26, 2019, at Total offices, Tour Michelet, Paris La Défense
- Program Commission 2020 on November 13, 2019, at LNE, in Paris
- Board Meeting on December 12, 2019

## REPORTS RECENTLY UPLOADED

### From Exera

#### E6100X18R

Evaluation of the micro-sensors of the Greenbee station for the measurement of the quality of ambient air (Azimut Monitoring)

#### E6101X18R

Evaluation of the micro-sensors of the Cairsens station for the measurement of the quality of ambient air (Cairpol)

#### E6102X18R

Evaluation of the micro-sensors of the EcomSmart station for the measurement of the quality of ambient air (Ecomesure)

#### E6103X18R

Evaluation of the micro-sensors of the AQMesh station for the measurement of the quality of ambient air (Environmental Instruments)

#### E6104X18R

Evaluation of the micro-sensors of the Watch Tower 1 station for the measurement of the quality of ambient air (Rubix S&I)

#### M6105X18R

Results of the pool from Exera members to the 2018 survey « Cybersecurity of Industrial Systems »

#### M6106X19R

Cartography of service providers specialized in maintenance in operational condition of electronic industrial equipment - Edition 2018

#### E6107X19R

Evaluation of Micropilot FMR62 levelmeter

#### E6108X19E

Evaluation of Optiwave 7500 C levelmeter

#### E6109X19E

Evaluation of VegaPlus 64 levelmeter

### From Evaluation International

#### T1981X18R

RFI Susceptibility Test Report - Motorvision MV2, relay for Motor Protection & Control - Feedervision FV2 for Feeder Protection & Control

#### M1982X19R

Study and Report on Possible Uses of Johnson Noise Thermometers in UK Nuclear, Aerospace and Petrochemical Applications

#### M1983X19R

VesselCheck ST2 Liquid Level Transmitter

#### M1984X19R

Cybersecurity of Field Devices

Reports are available online to registered members on the website [www.exera.com](http://www.exera.com)

## ON-GOING OPERATIONS

- Sept. 2017 Evaluation of seventeen absolute pressure transmitters on two pressure ranges [0-1 BarA] and [0-100 BarA]
- Sept. 2018 Evaluation of three flowmeters "low liquid flowrates"
- March 2019 Preparatory work for the drafting of contractual clauses for the purchase of services in digital security of industrial installations
